GSBI Experts Review International Reports

GSBI experts provided comments on two international science policy reports: **European Food Safety Authority Draft Opinion on Plant Protection Products on In-soil Organisms** and the **Intergovernmental Platform on Biodiversity and Ecosystem Services (IPBES) draft report on Land Degradation and Restoration**.

Global Earthworm Database Project

Dr. Erin Cameron and Dr. Nico Eisenhauer were funded by the German Centre for Integrative Biodiversity Research (iDiv) to develop a global database for earthworm data. They are currently **hiring a postdoc** for this project!

GSBI seeks to unify soil indicator research

Much work has and is being done linking soil biodiversity indicators with ecosystem functions. GSBI seeks to connect knowledge of past policy decisions based on indicators with emerging global interest. Contact us to share your knowledge

with the global scientific community.

PlantVillage seeks images of plant disease

PlantVillage (www.plantvillage.org) is a community of experts developing a tool for extension workers and growers that would enable phone based diagnosis of plant diseases. They are willing to pay between \$50-100 for 500 photos.
